LOCATION

Cape Town, otherwise known as “The Mother City”, is a cherished destination among locals and internationals alike. It has, in recent years, been named the best place in the world to visit by leading international media – and the reasons for this are unmistakable. The central region of this city comprises a number of sought-after attractions and suburbs: The V&A Waterfront region and harbour remain abuzz all year round, the CBD boasts world-class establishments and attractions that appeal to both business and leisure travellers, and the Atlantic Seaboard – just minutes from the CBD – offers a laid-back seaside setting

The region’s Mediterranean climate makes for pleasant summers, although winds can pick up. Notwithstanding Cape Town’s unpredictable weather, which has earned it the reputation of having four seasons in one day, the city experiences an average of over 3,000 hours of sunshine a year. Winters are typically rainy, but the city takes on a cosy, European atmosphere which is easily appreciated alongside a fireplace.
